<b>Polytechnic Foundation Programme (PFP)</b>	
<b>PFP Study Award</b>	The PFP Study Award is for PFP students with outstanding academic results, high achievers in co-curricular activities and exhibit strong leadership qualities and potential.

# Scholarships & Awards Offered

## **Ngee Ann Polytechnic Scholarship**

The NPS is awarded to high calibre students who exemplify academic excellence, demonstrate outstanding leadership potential, and uphold strong core values. The Ngee Ann Polytechnic Scholarship is the premier scholarship awarded to high calibre students who are excelling academically and are high achievers in their co-curricular activities with strong leadership potential and strong core values.

All first-year students will receive an invitation to apply for the scholarship in the first semester. Second and third-year students who perform well academically and are high achievers in their co-curricular activities with strong leadership potential will also be invited to apply for the scholarship.

Ngee Ann Polytechnic scholars will also get to be automatically enrolled in The Christeara Programme, an enriching initiative designed to nurture each student's unique personal and professional growth. Through this program, scholars will immerse themselves in an array of developmental sessions, engaging dialogues with world leaders and enriching events. This offers scholars unique opportunities to expand their potential, develop essential skills, and foster meaningful connections with like-minded peers.

## George Chow Scholarship

The George Chow Scholarship was established by the family and close friends of Mr George Chow Yew Tong to commemorate his legacy and support students pursuing a Diploma in Marine & Offshore Technology.

The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

*Open to students pursuing a Diploma in Marine & Offshore Technology.*

## HSBC Centenary Scholarship

One of the earliest banks in Singapore, the Hong Kong & Shanghai Banking Corporation Singapore (HSBC) established a centenary scholarship fund to commemorate a century of operations in Singapore.

The scholarship is awarded to students pursuing a Diploma related to built design and environment, with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

*Open to students pursuing a diploma related to built design and environment with a Gross Household Income less than \$4,400 or Per Capita Income less than \$1,100.*

## International Cancer Specialists Nursing Scholarship

International Cancer Specialists (ICS) is a Singapore company with a team of experienced and qualified healthcare professionals with a mission to provide a holistic approach to the screening, diagnosis, and treatment of cancer. The scholarship is donated by the founder of ICS as part of their 12<sup>th</sup> anniversary celebrations in 2023. The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

*Open to students pursuing a Diploma in Nursing.*

## KC Lee Scholarship

The KC Lee Scholarship was started by the family of the late Mr KC Lee, a remarkable entrepreneur in the marine industry. The scholarship is aimed at nurturing talented students in the School of Engineering particularly those pursuing the Marine & Offshore Technology course and other courses relevant to the marine industry.

The scholarship is awarded to students who demonstrate outstanding academic achievement, engage actively in co-curricular activities and exhibit exemplary leadership and character.

*Open to students pursuing a Diploma in Marine and Offshore Technology.*

## Koh Boh Chua Scholarship

The Koh Boh Chua–Ngee Ann Polytechnic Scholarship was set up by the family of the late Mr Koh Boh Chua, a philanthropist and community builder who strongly believed in the importance of education. The late Mr Koh helped to establish Ngee Ann Technical College, the predecessor of NP today. The scholarship is awarded to students who demonstrate outstanding academic achievement, engage actively in co-curricular activities and exhibit exemplary leadership and character.

## Lien Ying Chow Scholarship

Dr Lien Ying Chow was a prominent figure in Singapore's business and philanthropic spheres. He founded the Overseas Union Bank (OUB) and was closely associated with education throughout his life, playing key roles in the beginning of institutions like Ngee Ann Polytechnic and the National University of Singapore, leaving a legacy in education.

The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

## Liu Yin Soon Scholarship

Professor Liu Yin Soon was the first woman principal of an institution of higher learning in Singapore. Serving as Head of Department at Nanyang University before joining Ngee Ann College as their first principal in 1963. She held high regard for education.

The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

## Max Lewis Scholarship

The Max Lewis Scholarship was established by Mrs Gracia Diana Margharita Lewis in memory of her husband. Mr Max Lewis was the General Manager and Director of soft drink and beer giant Fraser & Neave Limited.

The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

## Micron Scholarship

The Micron Foundation is the philanthropic arm of Micron Technology, a renowned leader in the semiconductor industry. Building on the Micron's vision to enrich lives for all, Micron Foundation focus on providing equitable opportunities, supporting the communities while removing barriers, and increasing access to STEM (science, technology, engineering and math) education to create lasting social impact. With this, the Micron Scholarship aims at attracting new talent to the industry and motivating them to achieve academic excellence.

*Open for students pursuing a diploma from the School of Engineering.*

## **PCF Sparkletots Preschool Telok Blangah CC Scholarship**

PCF Sparkletots is one of Singapore's largest preschool operators, boasting over 360 preschools across the island. Their expansive network caters to a substantial enrolment of over 40,000 children, playing a pivotal role in early childhood education within Singapore.

The scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

*Open to students pursuing a Diploma in Early Childhood Development & Education.*

## **PUB Diploma in Engineering Scholarship**

PUB is Singapore's National Water Agency. It has ensured a diversified and sustainable supply of water for Singapore with the Four National Taps (local catchment water, imported water, NEWater, desalinated water). PUB leads and coordinates whole-of-government efforts to protect Singapore from the threat of rising seas and the holistic management of inland and coastal flood risks. The PUB Diploma in Engineering Scholarship is awarded to engineering talents who are keen to be involved in developing and managing Singapore's water resources and to write the next chapter in Singapore's water story.

*Open to students pursuing a Diploma in Electrical Engineering, Electronic & Computer Engineering or Mechanical Engineering.*

## **PUB Diploma in Environment & Water Technology Scholarship**

PUB is Singapore's National Water Agency. It has ensured a diversified and sustainable supply of water for Singapore with the Four National Taps (local catchment water, imported water, NEWater, desalinated water). PUB leads and coordinates whole-of-government efforts to protect Singapore from the threat of rising seas and the holistic management of inland and coastal flood risks. The PUB Diploma in Environmental & Water Technology Scholarship is awarded to talents who are keen to be involved in developing and managing Singapore's water resources and to write the next chapter in Singapore's water story.

*Open to students pursuing a Diploma in Environment & Water Technology.*

## Sands Hospitality Scholarship

The Sands Hospitality Scholarship is made possible by Marina Bay Sands and its parent company Las Vegas Sands. Marina Bay Sands is Asia's leading integrated resort with over 1,850 luxurious rooms and suites, convention and exhibition facilities, Asia's best luxury shopping mall, world-class dining and entertainment, as well as ArtScience Museum. As one of the largest players in hospitality, it employs more than Q11,500 Team Members across the property and drives social impact through its community engagement programme, Sands Cares.

*Open to students pursuing a Diploma in Hotel & Leisure Facilities Management or Diploma in Tourism & Resort Management.*

## SPH Media Limited Chinese Media Group Scholarship

SPH Media is Asia's leading media organisation with operations across major news titles and lifestyle content, served through omni-channel platforms. Their mission is to be the trusted source of news on Singapore and Asia, to represent the communities that make up Singapore, and to connect them to the world. The Chinese Media Group owns numerous news, lifestyle and radio brands including Lianhe Zaobao, ThinkChina, Shin Min Daily News, UFM100.3, 96.3 Hao FM and more, which cater to audiences in and beyond Singapore.

The Chinese Media Group scholarship embodies their dedication to fostering the next generation of media professionals. It recognises the exceptional achievements and potential of students pursuing a Diploma in Chinese Media and Communication and serves as a catalyst for their academic and professional growth in the dynamic media and communication industry.

*Open to students pursuing a Diploma in Chinese Media & Communication.*

## Ted de Ponti Scholarship

Mr Ted de Ponti created a significant impact in the lives of Ngee Ann Polytechnic students as he served as a benefactor. He was a businessman and a philanthropist, living up to his personal values of integrity, hard work, discipline and compassion for others.

The Ted de Ponti Scholarship is awarded to students with excellent academic results and high achievers in their co-curricular activities with strong leadership potential.

- Prepare your top CCA achievements in NP and a short writeup:
  - Year 1 students may use their CCA achievements from secondary school / ITE.
  - Each achievement should be unique and not duplicated.

**Note:** Students only need to submit one application, as it will cover all scholarships applicable.

# The Christieara Programme

---

The Christieara Programme (TCP) is Ngee Ann Polytechnic's signature talent development initiative, devoted to stretching the potential of NP's high performing students. Designed to refine personal effectiveness in character, leadership, and soft and hard skills, the programme prepares students for university applications and navigating real world challenges.

From dialogues with global leaders, guidance from mentors and specially crafted programmes such as 'Critical Thinking Workshops' and 'Overseas Merit Fellowship', students will gain more profound insights into global affairs, national issues and industry developments.

The programme offers an environment for students to safely explore and discover new possibilities, all while building connections with like-minded peers.

Scholarship recipients are automatically enrolled into TCP. Those who excel academically may also be invited to join.

The Christieara Programme is where potential meets opportunity, and aspirations take flight. Offering a transformative journey and opportunity to impact communities.

## Mentorships

Gain valuable insights and guidance from TCP mentors, alumni and professionals on your personal growth journey.

## The Christieara Summit

Sharpen your critical thinking skills and expand your knowledge of regional and/or global issues through discussions, debates and innovative creation with peers.

## TCP Programmes

### Overseas Merit Fellowship

To grow as future leaders, this programme encourages a deeper understanding of regional and global issues by sending students to interact with esteemed universities globally to broaden their minds.

### Dialogues

Exclusive opportunity to gain insights into global affairs, national issues and industry developments from dialogue sessions with global thought leaders.

### TCP Camp

The ultimate kickstarter programme for students to shape their community and identity by building on character, leadership and critical thinking skills.

### Workshops

Develop invaluable skills through carefully curated workshops such as 'Discover Your Personal Brand,' 'The Art of Critical Thinking' and 'Scholarship Application Clinics.'

# Maximising Your Scholarship Opportunities

---

Embarking on the journey towards acquiring a scholarship may appear daunting, but with the right strategy, commitment and mindset, it's closer than you might think. You don't have to set records or be a prodigy to earn a scholarship. Ngee Ann Polytechnic values students who have a well-rounded profile, emphasizing a holistic approach to selecting our scholars. Let's delve into some tips to set you on the path to scholarship success!

# 1

## Explore New Avenues

Step out of your comfort zone and explore your passions through Co-Curricular Activities (CCAs)! Choose CCAs aligned with your interests where you can envision yourself committing to in the long term, aiming for leadership roles. Choosing CCAs that align with long-term goals and aspirations will enhance your ability to narrate your story effectively. Articulating the reasons behind your choices demonstrates sincerity, clarity and purpose in your actions and decisions.

## Aim Early

The journey of a scholarship application starts as early as your time in secondary school. Start your preparation early by researching scholarships, understanding their requirements, and aligning them with your values. Start equipping yourself with experience that resonates with your interests and aspirations. These actions establish the way to success and distinguish you as a thoughtful and determined candidate.

# 3

## Engage & Impact

Beyond academic achievements, NP seeks students who actively engage and make impactful contributions to the school community. Consider how your passions and interests can contribute to the school community and events. Your involvements should reflect your values, goals, and character. It's crucial to align involvements with personal interests and goals, ensuring a sense of purpose and direction. It's not just about being active; it's about having a clear purpose behind your actions. Reflect on experiences and identify meaningful contributions to present a compelling narrative that highlights your commitment to personal growth and community impact. This will set you apart as a well-rounded and purpose-driven individual.

## Never Back down, Never Give up!

In the face of setbacks, resilience is key. If success doesn't come on your initial attempts, don't lose heart. Reflect on your experiences, identify areas for improvement, and persist in your pursuit of personal and academic growth and excellence. Scholarships acknowledge student achievements, but they are not a one-time opportunity. Focus on personal growth and development, and scholarship opportunities will follow. Remember, it's not just about numbers; it's about the value you bring as a scholar. Keep striving, keep learning, and embrace a mindset of improvement and perseverance to proceed on your journey to success. Scholars are defined by who they are, what they have accomplished, and their innate aspirations.

# Preparing for Interviews

---

After making it to the shortlist, the next phase in the scholarship evaluation process involves interviews. Academic schools will conduct these interviews to gain a deeper understanding of candidates, unravelling who they are and what drives them. Preparing for interviews demands a mix of self-awareness, preparation, and commitment. Position yourself as a candidate worthy of consideration by seizing this opportunity to shine and make a lasting impression through your story. Let's walk through some tips to help you prepare and ace that interview with confidence and grace!

## **Disposition: Present Your Best Self**

Upon entering the interview room, strive to exude confidence, professionalism, and genuine enthusiasm. Embrace the opportunity to showcase your authentic self while maintaining a polished demeanour. Keep in mind that the interview serves as a platform for the interviewer to gain insight into your character, interests, values, and work ethic. While nervousness is natural, maintain eye contact, speak clearly, and stay attentive throughout. This interview serves as a means to communicate volumes about your authenticity, so aim to present the best and most genuine version of yourself both in your stories and disposition!

## **Dress to Impress: First Impressions Matter**

Dress the part! Your attire is pivotal in making a positive impression during your scholarship interview. Choose clothing that demonstrates your respect for the opportunity and the interviewers you'll be meeting. Opt for business formal wear and steer clear of casual wear to match the importance of the meeting. Remember, your appearance sets the tone for the interview and contributes to the overall impression you leave, so aim to make a polished and professional statement from the moment you enter the room.

## Deep Understanding of Oneself: Know Your Story

NP receives many applications for scholarships annually. Amidst this competition, you need to understand yourself at a deeper level and consider what sets you apart from the rest. Identify your strengths, weaknesses, aspirations, and motivations. Explore the personal growth factors that you want to build and how you plan to achieve them. Reflect on past experiences, including those in your CCAs, school involvements, personal projects, self-improvement efforts or volunteer work. Highlight instances where you've made significant contributions and learned valuable lessons. Consider the reasons for your participation, your stance and enthusiasm for them to showcase what you care about and exhibit your heart to serve. Think about how they've shaped you into the person you are today. What do you want to achieve, and why?

Display confidence and a clear direction and path towards your goals. This could come in the form of discussing your course or future aspirations. Construct your own unique story and consider what you want to achieve through receiving a scholarship.

## **Stay Updated: Be Informed and Relevant**

Everyone has personal reasons for choosing their course of study, but those passionate go the extra mile by learning more about their field of interest in their free time. Enhance your general knowledge of your industry and stay informed about current events, industry trends, and developments in your field of interest. Be ready to demonstrate your passion and ambition in pursuing your education aspirations and career goals by highlighting experiences in projects, competitions, and activities related to your chosen industry. Show that you're not just interested but invested in making a difference and staying relevant in a rapidly evolving world.

# Blooming in Her Time

## **CHERYL NG XIN YI**

Diploma in Arts Business Management  
*Ngee Ann Polytechnic Scholarship*

Cheryl Ng Xin Yi is a Ngee Ann Polytechnic scholar driven by her passion for creativity with a realist's viewpoint. She has broadened her reach and experience through multiple avenues through being a member of The Sandbox (TSB) Entrepreneurship and a content creator on the side. Focused on the lessons she learnt through both her achievements and failures, her subconscious pursuit of wisdom not only shaped her NP journey but led her to a transformative experience through the Christiera Programme. Learn more about her journey of growth and discovery through the Ngee Ann Polytechnic Scholarship.

## **Pursuing Passion and Practicality**

Inspired by Singapore's melting pot of cultures, I developed a strong interest in the arts and the way it moves people and serves as a strong medium to express one's emotions. Apart from my natural inclination for creativity, I possessed an entrepreneurial mindset, which offered me a grounded perspective on life. Hence, I chose Arts Business Management (ABM) to blend my passion for the arts with a practical business foundation to serve as both a safety net and a pillar of support for my creative pursuits.

This decision led me on a holistic learning journey, marked by involvement in various art and business events offered by the school. As the Vice-President of TSB Advocates, I gained valuable business acumen and opportunities to enhance my networking skills, as well as to utilise the fundamentals of event management from my course. My role as the Partnerships Director for Verve 2022 allowed me to gain hands-on experience in orchestrating collaborations between artists and Verve, showcasing my ability to navigate the intersection of art and business.

Extending beyond the confines of academia, I ventured into content creation. Upon entering NP, I revived my creative account and frequently applied what I had learned in ABM — talent management and graphic design — to enhance my creative expression. This journey culminated in opportunities to work alongside brands such as Apple, aiming to uplift the student community.

Despite encountering challenges, I enjoy how being a content creator merges my passion for creativity and business. With a dedication to empower youths locally and abroad, I utilise this opportunity not only to learn new creative software but also to cultivate my skills in team management and collaboration.

## Nurturing a Love for Knowledge

As a recipient of the Ngee Ann Polytechnic Scholarship for three years, I had the privilege of participating in The Christieara Programme, which offered tailored initiatives for personal growth and connecting with like-minded peers. Despite my initial hesitation, one of the most memorable experiences was the Overseas Merit Fellowship (OMF), an initiative in collaboration with foreign institutions aimed at providing a broader exposure to global affairs. The theme for OMF 2023, Sustainability, was unfamiliar to me initially, but I was intrigued by its potential role in art. The trip turned out to be a valuable and unforgettable experience, exposing me to diverse perspectives and opportunities for growth.

Although I encountered moments of unease due to the new subject, being surrounded by peers eager to learn created a supportive atmosphere that fueled my own curiosity. My greatest takeaway was no longer about sustainability itself, but rather the hunger to learn and envisioning possibilities to give back to my community.

Instead of fixating on an end goal, I learnt the importance of allowing curiosity and my passions to guide me beyond the teachings of one's classroom. This mindset proved instrumental in overcoming hesitation and obstacles along the way, whether actively addressing them or simply embracing the journey of discovery and continuous learning.

## Redefining YOUR Success

Leading and organising TEDxYouth@NgeeAnnPolytechnic opened my eyes to the importance of inspiring youths to pursue their passions. I used to shoulder overwhelming workloads under the weight of societal expectations. I initially possessed misguided motivations, taking on projects driven solely by the desire to build an impressive resume.

However, my perspective changed when I assumed the lead organiser role at TEDxYouth@NgeeAnnPolytechnic. There, I chose not to take on additional responsibilities to ensure I can fulfill my commitment in running the event well. To my gratification, I discovered my strengths in event management and the joy of empowering others through teamwork.

As I reflect back, I realised that prioritising activities that align with my personal values was able to strengthen my commitment and contentment more. I recognised that success is not solely driven by external expectations, but rather, it's by finding one's personal fulfilment in life.

The scholarship played a pivotal role in reinforcing these realisations, serving as a cornerstone for building my character and fostering a growth mindset that proved invaluable in navigating challenges. I want to convey to others that every stumble in life is still a step and pursuing what brings you fulfilment, against all odds, will help define one's own unique version of success.

# Take a Chance at a Story

## **TEW CHUN HUI**

Diploma in Pharmaceutical Science  
*Ngee Ann Polytechnic Scholarship*

As Tew Chun Hui journeyed through NP, she immersed in a myriad of possibilities and aspirations, driven by an unwavering commitment to contributing to the community and reaching realizations and reflections from diving into the wonders of science! She navigated through the intricacies of academia and personal growth, embracing challenges and insights that would come to shape her narrative of resilience and determination. Join her as she reinforces her passions through experience.

## **Endless Possibilities**

My journey began when I first witnessed healthcare professionals treating my grandmother. This encounter ignited a deep-rooted fascination for the intricate workings of healthcare, medicine, science and a fervent desire to engage in hands-on experiences that would unravel its mysteries. Opting for Pharmaceutical Science after a captivating experience during Open House where the School of Life Sciences & Chemical Technology offered a hands-on medicine crafting experience. It marked a natural progression spurred by a transformative encounter that ignited a spark within me to explore the boundless avenues of pharmaceutical science.

As I delved deeper into my coursework, I discovered the profound joy of practical application, where theories seamlessly intertwined with real-world practices. Crafting a cream, for instance, was a pivotal moment, solidifying my preference for experiential learning through hands-on experiences. The possibilities arising from understanding theories and applying them hands-on was truly a core memory for me.

My experiences extended beyond the confines of the classroom, as I immersed myself in community service through the Rotaract Club. Drawn by my interest, I unexpectedly found myself taking on leadership roles in the Executive Committee, navigating the intricacies of event planning and international relations. I joined these roles to improve myself but found I gained more than I expected by managing events and collaborating with our overseas sister clubs. Despite initial challenges of time management and self-doubt, my unwavering determination was fuelled by the camaraderie of my peers and the fulfilment of contributing to a larger cause through collaboration with our overseas sister clubs.

## Writing the Chapters

The scholarship awarded to me serves as a testament not only to my academic and CCA achievements but also to my resilience and character. It tells my story of self-discovery, resilience, perseverance, and triumph. The Christiera Programme, made available to me through the scholarship, provided a platform for introspection and growth, honing my strengths and embracing the nuances of leadership and collaboration. A 'personal branding workshop' within the program, distinguished by its approach to self-discovery, was enlightening.

Navigating the complexities of academia and personal growth, I unearthed an appreciation for the diversity of human experiences and the intrinsic value of authenticity. Initially I wrestled with an unhealthy competitive mindset and struggled with time management. The realisation of universality of facing challenges prompted a shift in mindset and embraced the ethos of individuality and self-acceptance I liberated myself from constant comparison and self-doubt, forging ahead with unwavering determination and purpose. Holding a competitive and negative mindset will only drag you down in the time you worry about others and spend less time working on yourself.

Focus and grow at your own pace, in your own style and through your own ways. These are what helps in self-discovery and stand out. Write the chapters that are unique to you.

*Celebrating Christmas with families living in rental blocks.*

## You can't 'Stop' before you Try

I cannot stress the importance of embracing opportunities with an unwavering spirit and an open heart. Rejecting oneself before taking the first step denies the possibilities of unforeseen outcomes. Within the depths of uncertainty lies the promise of transformation and growth.

# Possibilities through Gaming

## **WONG CHAO HAO**

Diploma in Immersive Media

*Ngee Ann Polytechnic Scholarship*

Wong Chao Hao's strong interest in creating and his inquisitive curiosity in the structure of how games work laid the path for his choice of taking a Diploma in Immersive Media. Chao Hao's journey unfolds as a testament to the transformative power of combining gaming development and education to inspire current and new generations. Learn more about his journey in unravelling his aspirations and his avid creativity in combining his passion with inspiring contributions to the community.

## **Engage to Inspire**

Recognising the pivotal role youths played in driving the generation, I was drawn to Orion, an interest group within the School of InfoComm and Technology actively involved in outreach activities for secondary school students teaching them the wonders of game development. Serving as President, I worked with like-minded individuals overseeing two events utilizing an interactive metaverse world to engage youths during the pandemic and supporting the Open House. The goal was to spark passion for technology among the youth and foster a community dedicated to using technology and programming for education and empowerment.

Transitioning from Orion, I was invited to join Erudites, the Lien Ying Chow Library club, contributing to projects like “Read for Book”, a collaboration with the National Library Board (NLB) to encourage reading habits by donating books for pledges.

Through my CCAs, I discovered profound joy in creating experiences for people that either inspire them or help them with their personal journey. I witnessed firsthand the power of interactive storytelling and development in igniting curiosity and passion.

## Uncovering New Perspectives

Embracing opportunities offered by The Christieara Programme (TCP), I participated in transformative experiences through the personal branding workshop and TCP Camp. The immersive card games and treasure hunts during the camp were memorable as they not only tested my strategic acumen but also reshaped my perspective on teamwork and communication, fostering an environment

of openness and shared learning. These immersive programs allowed for personal development, challenging me to broaden my perspectives and redefine my understanding of leadership and collaboration, contributing to who I am today. Through the scholarship and TCP, I was given the opportunity to meet others who have different views, allowing me to develop a mindset to be inquisitive and introspective.

## Changing the ‘Game’

I am committed to leveraging technology as a catalyst for change, and I aspire to remain at the forefront of the gaming industry. My goal is to create transformative experiences that transcend entertainment and foster engagement in spaces especially in the educational setting, and my experience in my CCAs inspire me to develop interactive tools that revolutionize engagement, making complex concepts digestible for future developers and educators.

## Become the Scholar You Aim to Be

To me, the Ngee Ann Polytechnic Scholarship is more than a recognition of academic achievement; it is a testament to one's unwavering commitment to personal and intellectual growth. It acknowledges achievements while expressing trust in your future. My advice for those in doubt of your qualifications is to focus less on the numbers and more on proving your potential for continuous growth. If awarded a scholarship, seize the opportunities offered to develop further. Be a scholar not just in name but in deeds, striving to be the best version of yourself.

# Delving into Uncharted Zones

## **RYAN TAN YAN XU**

Diploma in Design  
*Ngee Ann Polytechnic Scholarship*

Ryan Tan Yan Xu is a passionate scholar on his journey into the realm of design and architecture. A pivotal moment of exposure during a collaborative initiative between his secondary school and Ngee Ann Polytechnic, where NP lecturers taught 'Design Studies' as an O-level examinable subject, sparked a profound interest that shaped his academic and extracurricular pursuits. He navigates challenges with perseverance and determination, forging a path leading him to remarkable experiences and opportunities. Learn more about his journey in the world of design, while traversing new territories through scholarship opportunities.

## **Commitment and Tenacity**

As the President of School of Design & Environment (DE) Society, I coordinated many events, including a freshman orientation program for over 200 students. Navigating challenges and pressure with resilience and determination, I strategically prioritized and effectively delegated to balance my responsibilities. I learnt to dedicate time for important tasks while seeking support from my team members during academic peak periods.

To prove myself, I participated in the International Building Design Competition 2023, for which my team won the second prize. I also went to Taiwan for the Introducing and Demonstrating Earthquake Engineering Research in Schools (IDEERS) Competition in 2023 to gain global insight and build my experience in design.

My passion also drove me to help out at the Singapore Young Architects League, where I took part in the building of their pavilion for Archifest 2022. These experiences honed my capabilities in time management and project coordination.

My design journey is marked by steadfast commitment, resilience, and an enduring passion for crafting meaningful and impactful experiences and contributions in the field of architecture.

## Unlocking Boundless Opportunities

The scholarship opened avenues for valuable experiences and connections I would have otherwise had no chance to experience. Apart from workshops and the TCP Camp, the highlight was the Overseas Merit Fellowship at the University of Queensland in Brisbane, Australia. I came out of the two-week programme with a broader view of what sustainability entails, helping me understand that there are other possible perspectives to take when approaching new topics.

Other than participating in The Christieara Programme (TCP) activities, I also served as a facilitator in the TCP Camp. This meaningful experience provided me with a space to practice my facilitation skills, and expanded my network by connecting me with scholars from different schools.

## Community of Support

Embarking on my career and academic path, my goal is to persist in the field of architecture, with a contribution to the Built Environment industry. The scholarship journey played a pivotal role in supporting me in my goal of seeking a career in architecture. It has been instrumental in fostering different skills and shaping my character, encouraging critical thinking. The exposure and resources gained through the scholarship have been crucial. Support for university pursuits, including dialogue sessions and guidance on application preparation by TCP staff have been invaluable.

## Take a Leap of Faith

For fellow students hesitating to apply, my advice is to take a leap of faith - there is no harm in trying. I was unsure of my suitability and worth in comparison to others, but recognised that applying opens doors to personal growth, skill development, and a step closer to aspirations. While scholarships may be competitive, not trying means missing out on the opportunity to discover one's standing and potential for growth.
